EDITORIAL

It was great to welcome back so many members at last month's meeting where our Treasurer announced the good news that fees have been waived for this financial year. The not so good news is that individual tuition sessions will not resume for some time – probably after the COVID 19 vaccination program is rolled out.

Thank you Brian Kirton for your professional and informative presentation on the Service NSW app. Since then I have been checking in to venues using the ServiceNSW COVID Safe Check-in QR code where this is available. Let's hope that the Georges River Council will introduce this check-in instead of the existing procedure. As well I successfully renewed my driver's licence online. The new photo license is sent out in the mail a few days later.

Question time after Brian's presentation resulted in many interesting and diverse topics including the differences in messenger apps - WhatsApp, Telegram and Signal. Brian advised that the security and privacy provided by Signal is hard to beat.

If there are computer/technology issues you would like included in this newsletter please email your contribution or suggestions to hurstvillescsecretary@gmail.com

Mary Teasdale

FEBRUARY MEETING

INTERNET SEARCH

This month's topic is 'Internet Search'.

- How to find the answer to your enquiry on the internet, and
- What are your options if Google Search is not available.

Many thanks to Geoff Turton for this presentation.

Special Interest Groups are meeting again.

The **Digital Imaging Group** has resumed meetings at 91 Queens Road. The Group meets at 1.30pm on the first Tuesday of each month. The topic for photos to be presented on Tuesday 2 March will be 'bikes' Questions about digital images are attempted to be answered.

There are no charges for these sessions and all members are welcome to attend. If interested please contact Geoff Turton.
